ABOUT THE EXHIBITION

Analitika Expo is the market leader in analytical chemistry industry in Russia and CIS countries. The exhibition is the central business platform uniting suppliers of analytical equipment and experts from different research and production laboratories.

The exhibition offers a full range of equipment and services for comprehensive laboratory fitout.

The exhibitors present analytical equipment at work, laboratory furniture, chemical reagents, consumables, and demonstrate research automation systems. The exhibitors offer services for laboratory design and construction, selection of engineering materials and structural coating, creation of internal environments, gas, water and air treatment.

EXHIBITORS

260 Exhibitors from **10** Countries

EXHIBITOR PROFILE

Domestic and foreign manufacturers and suppliers of equipment and chemical reagents for production and research laboratories

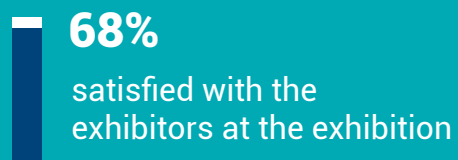

NEW APPLICATIONS AND METHODS PRESENTED

Anhui Zhongke Duling Commercial Appliance, BioChemMac, ChemMed, Chromatech, Chromos Engineering, Dipol, DNA Technology, Ekroshim, Epak-Service, Helicon, IMS Group, Laboratory Equipment and Instruments, Lumex-Centrum, Petrotech, Shinva Medical Instruments, Spectron, Tescan, Tofflon Science and Technology Group, Vibrotechnik, Wuxi Nest Biotechnology, Yancheng Huida Imp. & EXP. and many others.

OVER 100 FIRST TIME EXHIBITORS INCLUDING

Belaquilon, D-micro, Exiton Analytical, Exiton Test, Fiberhan, Hevel Technology, LenReactiv, Levenguc, Newtons, ProteinAntibodies, SkyGin, Spectraite, Technopribor and many others.

RESULTS FROM THE EXHIBITOR SURVEY

77%

found new prospects and clientele
at the exhibition

EXHIBITOR FEEDBACK

I did not expect that there would be so many interesting visitors. There were many different manufacturers, from pharmaceuticals to Russian Helicopters. I am very satisfied. Everything has been done at a high level.”

Alexander Radjabov,
Commercial Director Labkot

The Analitika Expo is very popular among our customers. It is a unique opportunity to meet, talk, see devices and agree on new opportunities. Analitika Expo is also an opportunity for us to find not only new clients and customers, but also to establish contacts with potential partners, and manufacturers of the products we are interested in

Alexander Goltvyanitsa
Head of Analytics , Helicon Company

Our stand was visited by quite a large number of visitors. We were very pleased with the number of participants and attendees. We plan to participate again next year!

Aleksey Andresyuk
Head of Development, Rusbiopharm

Analitika Expo gives us the opportunity to evaluate its effectiveness not only after the event but during, when we started working on the received leads and applications. But we can do it in the moment because we have already signed three equipment contracts - it happened in the moment here and now.

Anastasia Pershina
General Director, InProTech

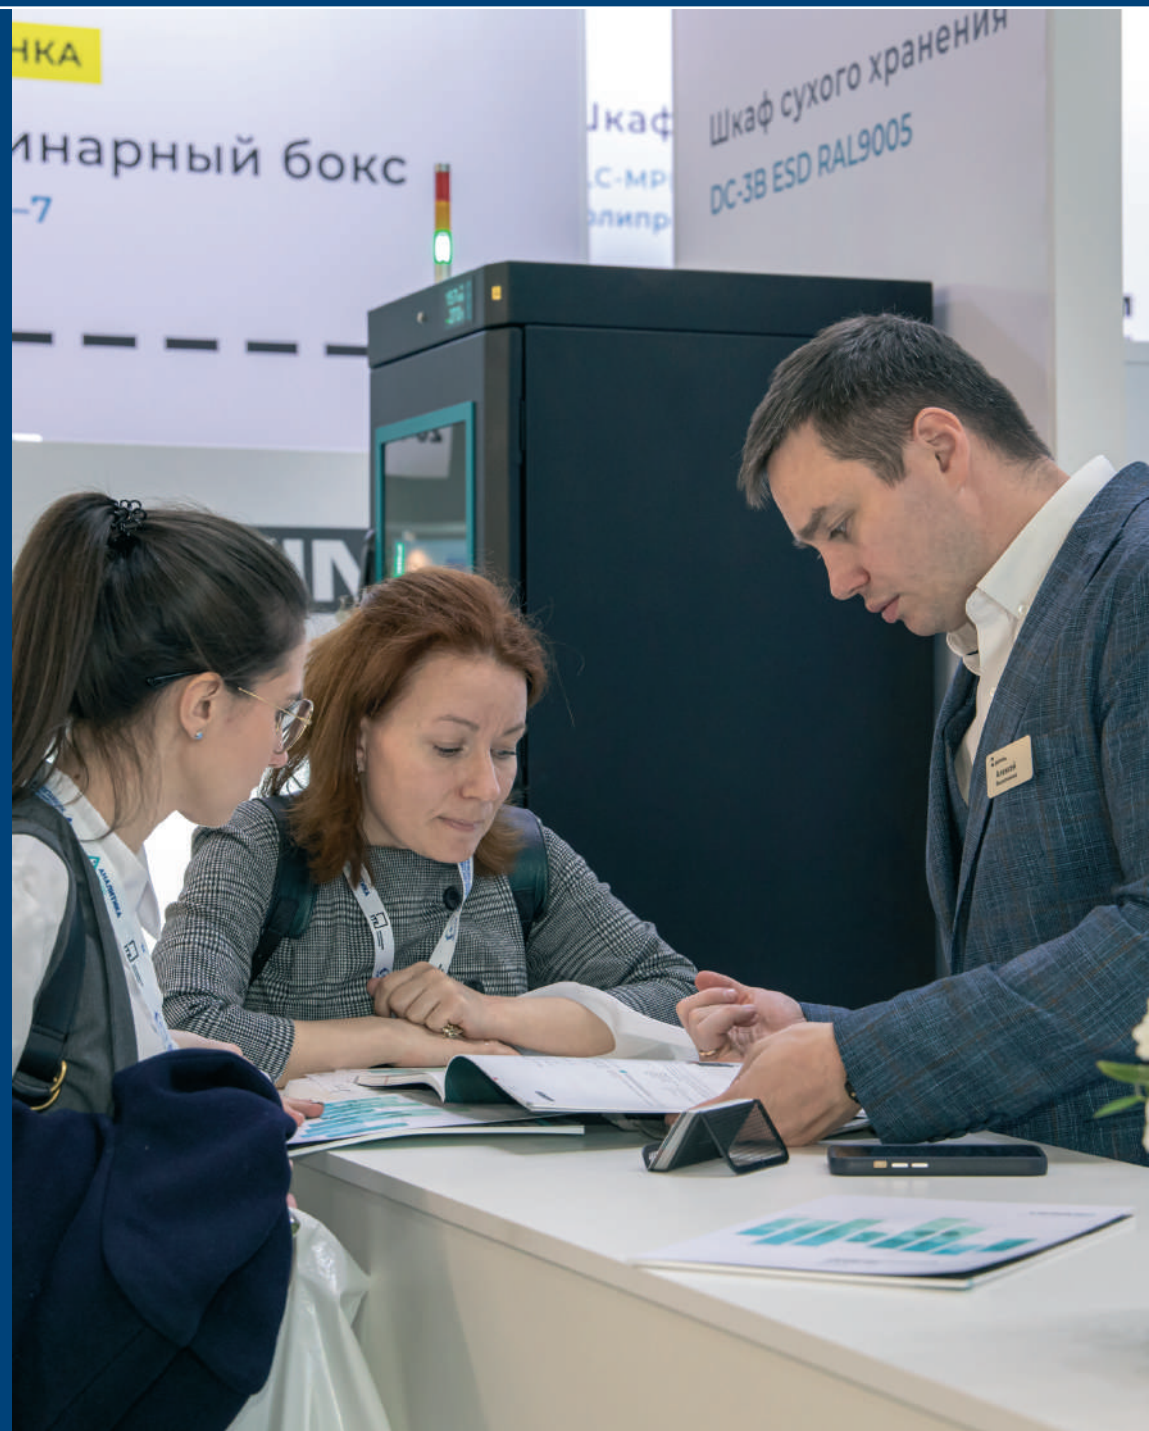

VISITORS

5 747 VISITORS

from **68** Regions of Russia
and **19** Countries

VISITOR PROFILE

Representatives from research, independent and manufacturing laboratories from various industries from chemical, pharmaceutical, agricultural, medical, oil and gas, food, biotechnological industries, representatives of laboratories for environmental monitoring, as well as distributors of laboratory equipment and companies specialising in the design, construction, renovation and complete laboratory equipment.

VISITOR DEMOGRAPHICS

68

Regions of Russia

CONFERENCE HIGHLIGHTS

- 1** Plenary session
"Effective laboratory performance in the current realities. Modern solutions for new challenges."
- 2** 3rd International Conference RIDL 2024
"Research infrastructure and design of laboratory spaces."
- 3** FIRST! Seminar
"Environmental analytical laboratories: requirements in the field of accreditation and to take measurements"
- 4** Seminar
"The requirements of the standard GOST ISO/IEC 17025-2019 in terms of incoming inspection of materials and services. Traceability of measurement results"..
- 5** Seminar
"Tools for laboratory test result validity. Theory and Practice of Application."
